

THE CENTER FOR AQUACULTURE TECHNOLOGIES CANADA

Aquaculture Technologist-Facilities

The Center for Aquaculture Technologies Canada, a private aquaculture innovation and research company is seeking an **Aquaculture Technologist** to assist in the daily operations of its R&D Facility on Prince Edward Island. This is a full-time, permanent, position reporting to the Facility Manager. Our research team focuses on providing high quality contract R&D support and professional services to the aquaculture industry. The successful candidate(s) will be a key member of CATC facilities operation team with the following responsibilities:

- Assist in the daily operations of the aquarium facilities in compliance with regulatory guidelines
- Performs daily monitoring and data collection related to facility function
- Assists in setting up and decommissioning of aquaculture systems
- Assists in routine maintenance tasks and facility improvements
- Expected to work weekends and participate in on-call monitoring of facility operations on a rotating basis.

Desired skills/experience/competencies:

A minimum of a high school diploma with experience with aquaculture systems and/or demonstrable mechanical skills is desirable. The successful candidate must have the ability to work as part of a team in compliance with facility standard operating procedures and be physically able to handle tasks that include, lifting, bending and climbing. Candidates must demonstrate keen attention to detail and have the ability to think strategically, solve problems, and work independently in a fast-paced environment. CATC staff are innovative and foster a positive work environment congruent with the company values and philosophy.

CATC offers a competitive salary and benefits including group health care and retirement savings plans.

Please send CV/Resume and provide the contact information for three references to: info@aquatechcenter.com with 'Aquaculture Technologist-Facilities' as the subject line.

Applications are accepted until the positions are filled; only candidates selected for interview will be contacted.
