

**Director, Medicinal Products
Charlottetown, PEI**

Dosecann is a Canadian licensed dealer dedicated to developing Cannabis Solutions for the global cannabis industry. Dosecann has assembled a world-class team housed in a purpose-built, 42,000sqft GMP compliant facility that will be the hub for cannabis extraction, product innovation and formulation.

About the role

Dosecann is currently recruiting for a Director, Medicinal Products supporting product innovation. This role will focus on key Research and Design (R&D) areas and lead the strategy for new and improved products from concept to commercialization. The successful candidate will bring expertise in the development of pharmaceutical products in addition to strong internal and external partner collaboration.

What can you expect to do

- Develop new product formulations and prototypes;
- Pre-clinical support, clinical trials manufacture (including facilities management and GMP), formulation development, device development, and technical transfer;
- Design and conduct prototype testing, scale-up process, and stability testing;
- Prepare and present Product Development Roadmap, Development Concept and Research findings to management;
- Research and analyze innovative delivery systems and take them from ideation through commercialization;
- Work with suppliers on obtaining key technical information, exclusivity, licensing and supply agreements;
- Work collaboratively with cross-functional teams (Quality, Manufacturing, Marketing, Regulatory Affairs, and Legal);
- Ownership of multiple product development areas, such as innovation, optimization, and brand maintenance;
- Develop and lead a team of outstanding Product Development Specialists;
- Develop regulatory strategies and relevant scientific programs ensuring all regulatory requirements are met that lead to the successful preparation, review, and filing of submissions to Health Canada;
- Liaise with external experts and specialist suppliers to secure excellence in deliverables critical to project plans;
- Maintain & leverage knowledge of relevant scientific developments.

What we're looking for

- M.S or Ph.D. in Pharmacy, Chemistry, or equivalent is a must;
- Minimum 5 years of experience in Research and Design, in pharmaceutical and/or regulated Consumer Package Goods industry;
- Proven track record of successful medicinal product implementation from concept to commercialization;
- Experience of multiple pharmaceutical dosage forms;
- Excellent oral and written communication skills with proven ability to manage up and work well in a collaborative team environment;
- Excellent problem-solving skills;
- Demonstrated expertise in strategic and tactical partnering with internal and external resources;

Dosecann Cannabis Solutions

- Works seamlessly in both a business and R&D or innovation environment;
- Strong technical activity management in a stage-gate system is required;
- Proven ability to deliver programs on time and within budget.

** Dosecann is an equal opportunity employer*
