

**Formulation Specialist
Charlottetown, PEI**

Dosecann is a Canadian licensed dealer dedicated to developing Cannabis Solutions for the global cannabis industry. Dosecann has assembled a world-class team housed in a purpose-built, 42,000 sqft GMP compliant facility that will be the hub for cannabis extraction, product innovation and formulation.

About the role

Dosecann is currently recruiting for a Formulation Specialist supporting product innovation. This role will focus on key research and design (R&D) development areas and lead the strategy for new and improved products from concept to commercialization. The successful candidate will bring expertise in the development of pharmaceutical and supplement-based products in addition to strong internal and external partner collaboration.

What can you expect to do

- Preparation of formulation development protocols, reports and other documents related to formulation/process development activities;
- Participates in or leads problem solving for formulations, equipment and processes;
- Design and execute/oversee experiments aimed at developing purification protocols;
- Preparation of formulations in labs and collaborating with the Quality Control team for testing;
- Ensure compliance with the Auxly's code of conduct, as well as local and global regulatory guidelines (i.e.: ICH, GMP, GCP and GLP);
- Perform experiments, analyse data, form conclusions, and report the results;
- Participates in training, qualification of equipment, and writing Standard Operating Procedures (SOP's);
- Presents interpreted results and updates to Client Services, PDS, Operations, and individual clients;
- Records results in accordance with current Good Manufacturing Practices (GMP) and company standard;
- Oversee equipment maintenance and optimization as well as set-up, run and clean;
- Manage the day to day operation of Development lab;
- Participates in writing development reports;
- Manage the stability testing;
- Other duties as assigned.

What we're looking for

- B.Sc. or M.Sc. in Chemical or Pharmaceutical Sciences or equivalent;
- Minimum 2 years of work experience in the pharmaceutical industry with hands-on laboratory experience in formulation development;
- Demonstrable understanding of pharmaceutical formulation science, equipment, formulations and processes;
- Good communication (written/verbal), interpersonal and organizational skills;
- Ability to work independently as well as part of a team;
- Attention to detail and ability to work in a quality orientated environment;
- Theoretical and working knowledge of Good Manufacturing Practices (GMP) and Canadian Cannabis compliance laws and regulations;
- Ability to work well independently and in a team environment with limited supervision;
- Excellent written and oral communication skills;
- Communicates and co-operates with others to meet project and team objectives;

Dosecann Cannabis Solutions

- Present findings regularly with marketing and R&D departments;
- Evaluate feedback and make necessary changes to formulas.

** Dosecann is an equal opportunity employer*

Please send your cover letter and resume attention to: Hajira Sajjad at careers@dosecann.com.

We thank all applicants for their interest in working with Dosecann Cannabis Solutions. Please bear in mind, due to the large volume of applications received, we will only be able to contact those candidates who are being most actively considered for the position.”
