

# THE CENTER FOR AQUACULTURE TECHNOLOGIES CANADA

## Research Associate

The Center for Aquaculture Technologies Canada, a private aquaculture innovation and research company, is seeking an experienced nutritionist to contribute as Research Associate in its R&D Facility in Souris, Prince Edward Island. This is a full-time position and will begin immediately with the successful candidate reporting to the Director of Fish nutrition. Our research team focuses on providing high quality contract R&D support and professional services to the aquaculture industry. The successful candidate will be a key member of CATC team and fulfill the following responsibilities:

- Manage research projects on nutrient digestibility, feed efficiency, growth performance with various fresh/marine cold/warm water species.
- Ensures operational efficiency of the aquatic laboratory.
- Applies expertise to experimental system set-up, assay design, method development, and purchasing.
- Care and maintenance of the laboratory including calibration and qualification of equipment as well as completion of records.
- Manages schedule and assignment of resources; ensures timely completion of all projects with a high degree of quality.
- Carries out data acquisition, analysis, interpretation and reporting/verification of results.
- Develops and revises Standard Operating Procedures (SOPs).
- Provides training for staff in use of specific SOPs.
- Management of staff including interns and junior research associates.

Desired skills/experience/competencies:

- A minimum of a BSc. in a relevant field plus 3 years experience. A postgraduate degree with applicable industry and/or research experience would be considered an asset.
- Eligible to work in Canada.
- Ability to manage and execute multiple projects concurrently.
- Physically able to handle routine and repetitive tasks including cleaning of experimental systems, bending, and lifting.
- Experience working in a regulatory environment in compliance with standard operating procedures.
- Ability to work as part of a team.
- Service oriented with a commitment to ensuring client satisfaction.
- Fosters a positive work environment congruent with the company values and philosophy.

CATC offers a competitive salary and benefits including group health care and retirement savings plans.

Please send CV/Resume and provide the contact information for three references to:
