

THE CENTER FOR AQUACULTURE TECHNOLOGIES CANADA

Aquaculture Technologist

The Center for Aquaculture Technologies Canada, a private aquaculture innovation and research company is seeking an Aquaculture Technologist to assist in the daily operations of its R&D Facility on Prince Edward Island. This is a full-time, permanent, position that will begin immediately. Our research team focuses on providing high quality contract R&D support and professional services to the aquaculture industry.

The successful candidate(s) will be a key member of CATC team with the following responsibilities:

- Assist in the daily operations of the aquarium facilities in compliance with regulatory guidelines.
- Performs daily husbandry during animal trials.
- Performs equipment monitoring including data collection in compliance with standard operating procedures.
- Assists in setting up and decommissioning of aquatic systems.
- Expected to work weekends on a rotating basis.
- May participate in sampling events.

Essential skills/ experience/ competencies:

- Minimum high school diploma plus two years of experience or equivalent.
- Willingness to learn new skills and to perform routine and repetitive tasks.
- Ability to work as part of a team in compliance with facility standard operating procedures.
- Physically able to handle tasks that could include lifting, bending and climbing.
- Self-motivated with a demonstrated ability to think creatively and solve problems.
- Demonstrable organizational skills with the ability to multi-task.
- Fosters a positive work environment congruent with the company values and philosophy.
- Must be eligible to work in Canada.

Desired skills/ experience/ competencies:

- Experience with recirculating aquaculture and other mechanical systems
- Prior experience in a CFIA regulated/GLP environment.

CATC offers a competitive salary and benefits including group health care and retirement savings plans.

Please send CV/Resume and provide the contact information for three references to: info@aquatechcenter.com with 'Aquaculture Technologist' as the subject line.

Applications are accepted until May 30 2019; only candidates selected for interview will be contacted.
