

## Maintenance Technician

Permanent, Full Time

Victoria, PE

### Company Profile:

AMAR Seafoods Ltd., headquartered in Norway with operations in Quebec and Newfoundland, has acquired the assets of the former Halibut PEI in Victoria, PEI. The new company is called AMAR Seafood PEI. At Amar Seafood, we want to contribute to developing successful food production with a sustainable focus, to help our future generations - both in terms of diet and environment. Our aim is to contribute to sustainable business and industry growth through research and development partnerships, prioritizing fish welfare and growth, as well as contribute to a more sustainable seafood production that benefits future generations.

The company presently grows Wolf Fish for market consumption and will be moving its Wolf Fish brood to Victoria, PEI. The Victoria operation houses all the captive broodstock Halibut in North America and uses RAS technology to rear Halibut larvae to market sized fish. The company plans to produce both Halibut and Wolf Fish for the marketplace while focussing on environmentally sustainable on land fish farming practices.
