1. Device manufacturing, batch production records, labeling, packaging and storage under GPP and GMP conditions
2. Involvement of inventory control for components and ingredients
3. Involvement in creating and releasing labels, adding labels and completing packaging as per guidelines
4. Implementation of the sanitation program

Remidose Aerosols Inc.

Technicians will be required to:

- Understand and follow the written QA program for Remidose that complies with the Cannabis Regulations
- Have written experience and execution of SOP's and work instructions
- Execute manufacturing of cannabis products
- Execute sampling protocols.
- Monitor certificates of analysis and other lab results.
- Have oversight of equipment operation, maintenance, and servicing.
- Operate under GPP and GMP activities
- Evaluate in-process control activities
- Ensure all records and documents are properly kept
- Maintain lab operating and product specification sheets
- Maintain lab supplies and components for manufacturing
- Oversight of inventory control
- Implement sanitation protocol
- Other general lab duties as required

EDUCATION/SKILLS/QUALIFICATIONS:

- BSc. or Diploma in sciences, biotechnology an asset
- Experience with recognized QA systems is an asset
- Excellent computer skills and proficiency in written and verbal communication
- Strong problem-solving ability and ability to work independently
- Team player, trustworthy

Candidates that wish to apply should:

- Provide an updated curriculum vitae that details all aspects of training, knowledge, technical expertise and manufacturing or product development experience
- Comment on your experience and understanding of working with manufacturing equipment and whether you have worked prior in the cannabis industry.

To Apply: Please send your CV and a cover letter to mbmayne@remidose.com and place in the subject line "Technician 2026 - Remidose". Only those applicants that will be interviewed will be contacted.

Application Closing Date: June 12th 2026, 5 pm ADT

Remidose Aerosols Inc. is an equal opportunity employer and all qualified applicants are encouraged to apply.
